DAY'S NEWS SUMMED UP

FEARS PRECEDENT

"I feel that the decision of the New York court establishes a dangerous precedent favorable to criminals. A prior State prison board started the practice in California of paroling prisoners to places outside of the State. There are now numerous paroled prisoners outside of the State who could not be returned if the decision in the Hutchings case is followed by the courts of other States. In other words, a paroled prisoner, outside of the State, could violate the rules and conditions of his parole with security. I feel that this State has a responsibility with respect to these paroled prisoners

KEEP THE 'L' OUT OF LOS ANGELES MUNDSEN The Railroad Commission and Interestate Commerce Commission, the people's engineers,

have declared in favor of grade-crossing elimination in Los Angeles by means of a union depot

The railroads propose to eliminate grade crossing by building more than four miles of elevaled "L" structures in our downtown area.

Vote "Yes" at April 30 special city election on union depot and Plaza site (Propositions Dirigible Will be Transferred District Attorney, Nearing 8 and 9) and keep the "L" out of Los Angeles.

The Railroads and Their Apologists Say Elevateds Are not Dangerous

This is a photograph of an "L" accident in Brooklyn where many were killed and injured when the cars fell off the high trestles to the street, thirty-five feet below. The accompanying article shows why elevateds are peculiarly liable to such accidents.

(EXCLUSIVE DISPATCH) NEW YORK, March 28 .- About 2 o'clock in the afternoon of June 25, 1923, a two-car wooden elevated train, coming from Bay Ridge to downtown Brooklyn, left

two-car wooden elevated train, coming from Bay Ridge to downtown Brooklyn, left a turn at Fifth avenue (Brooklyn) and was rounding into Flatbush avenue. Just at that point there was a sudden, sharp bumping and the rear car left the track, falling off the elevated structure into the street and pulling the front car with it. The cars shot through the air thirty-five feet before they crashed to the street, collapsing in a cloud of smoke and dust.

As horrified spectators near by rushed forward to help pull out the injured from the shattered cars, a truck of one of the cars, which had broken off and stuck on the edge of the tracks, fell and smashed through the second car of the train. The cries of the cars ceased, and a tragic silence followed as policemen, firemen and others lifted the victims out and found that seven persons had been killed and seventy injured. The rescue work was risky, for the cars took down with them the trolley who touched them.

WHY ELEVATEDS ARE EXCEPTIONALLY DANGEROUS

Investigation of the Brooklyn disaster brought out the fact that elevateds are far Investigation of the Brooklyn disaster brought out the ract that elevateds are far more liable to accidents than either surface or subway lines. The tracks are always exposed to the ravages of the weather—the rains rust them, the sun warps them, the cold snaps them. The whole structure of an elevated shakes with the weight and speed of trains. Guard rails rot above ground, but underground they remain intact indefinitely. A motorman in the subway or on a surface car can drag his train along as fast as he wills because the foundation of his roadbed, being laid on the ground securely, does not sway. And should a subway train, going at high speed, jump the track, it could not crash downward thirty-five feet and create havoe in the streets below.

Much was said by the investigators about the use of wooden cars on the elevated

shoot husband a decided today of a probabilist of a probabilist of the state of the Much was said by the investigators about the use of wooden cars on the elevated lines. The part they play in accidents is a question still being quarreled over by experts. The advocates of steel cars do not claim that they will prevent accidents; they say only that the use of them will reduce in juries and deaths when crashes occur. Other equally qualified experts say that no elevated structure is strong enough to sustain the added weight and mauling of steel cars; and that in a crash, if it be a serious one, the ordinary elevated structure would in all likelihood crumble. To be strong enough for steel cars the "L" structures would need to be much more stoutly built and thus would cost a great deal more and cut off even more soulight and abroard the structure.

steel cars the "L" structures would need to be much more stoutly built and thus would cost a great deal more and cut off even more soutly built and thus would cost a great deal more and cut off even more soutlight and shroud the streets in even more gloom than they do now.

The frequency of accidents on the elevated lines brings to the fore the leading argument used by proponents of the elevated. They say that it costs much less to install "L's". As far as initial costs are concerned no one can gainsay them their contention. But when damages paid for injuries and loss of life are added, the cost over a period of years will in itself be enough to build an equal or greater mileage of subway.

No exact figures are obtainable regarding the amount paid in claims, but it is significant that after the Malbon street wreck in 1918 the Brooklyn-Manhattan Transit Company was forced into the hands of a receiver because of the \$75,000,000 in claims one-half miles of four-track subway lines, on Broadway and Seventh avenue from (Continued on Page 2, Column 5)

Forty Years Exile for Duke of Orleans Ends as He Succumbs to Pneumonia in Italy

(BY CABLE AND ASSOCIATED PRESS)

PALERMO (Sicily) March 28 .- Louis Philippe, Duke of Orleans and pretender to the throne of France, died of pneumonia today at his villa here. He had been ill only a few days. His sister, former Queen Amelie of Portugal, was at the bedside. Other sisters of Duke, Princess Isabelle and Princess Helen, Duchess of Aoste,

MAST THREATENS HALT TO I FEDERAL AID ACTIVITIES

Movement Constitutes Menace to Western States' Development by Curbing Highway Projects

BY KYLE D. PALMER "Times" Staff Correspondent (EXCLUSIVE DISPATCH)

WASHINGTON, March 28 .- A movement originating largely in States east of the Mississippi to abandon or drastically curb the system of Federal subsidies to the States has developed to such an extent as to constitute a menace to one of the basic projects most essential to the development of Western States-Federal aid for highway construction.

In Rhode Island a tax league Vocational education, \$8,846,has been formed to oppose "the
present tendency to employ the
lure of State aid to induce the
States to submit to Federal supervision and control of various
State activities" and similar negotlations are in process of formation in other States.

Vocational education, \$8,846,
Vocational rehabilitation, \$1,
017,667.

Maternity and infant hygiene,
\$924,085.

The principle under which this
system is operated requires that
the States match, dollar for dellar, the sums appropriated from

State activities" and similar negotitations are in process of formation in other States.

While the tendency to attack the Federal aid system is to be confined largely at this time to opposition to further extension of the subsidies the ultimate object is plainly that of elimination of Federal assistance to the States in any form.

Borutiny of the appropriation bills enacted by the present Congress, or now pending, shows that the total Federal subsidies for the fiscal year ending June 16, 1327, will not exceed \$111,000,000, which is substantially the sum to be expended for the current year ending June 20, 1926.

Eract figures are not available in any year until statistics have been compiled, as under the subsidiey system, a part of any year's fillotment may be permitted to accountiate and be expended in succeeding year.

INCREASE ALARMS

There are now five major Pederal subsidies to the States accompiled by the American Bankers' Leagus for the fiscal year ended year and the subsidies are granted.

CALIFORNIA AID GIVEN

Statistics compiled by the American Bankers' Leagus for the fiscal year ended year.

INCREASE ALARMS

There are now five major Pederal subsidies to the States accompiled to exceed \$48,80,000. It is this rapid increase over a period of ten years, it seems, which has so alarmed persons in the East.

Actual expenditures for the principal subsidies in 1925 were:

Highway construction, \$5,754.

Two Thousand Rioting Students Small Was and Furniture at Japanese Office in Sharel

[BY CABLE—EXCLUSIVE DISPAT

SHANGHAI, March 28.—Serious rioting by 2000 stormed the Japanese consulate at Changaba, Ifpan ing windows and destroying furniture, occurred procession with the student demonstrations in sympathy was

killing March 16.
Student demonstrations at
Shanghal for the same purpose
were addressed by the president
of the National Students Union.

JUMPS TM who reviewed the Peking student who reviewed the Pening students are to the property of the pr massacre, charging the powers with responsibility, especially the Japanese and British. The speaker declared the Provisional President, Tuan Chi-Jui, was a tool for the powers and a traitor to Chima Following the meeting, circulars were distributed demanding the overthrow of the Tuan Chi-Jui government, and the recommendation that the government construct a monument to the victims.

A resolution was made demanding the abrogation of the Boxer protocol and other unequal treaties. The crowd was kept orderly by a guard of more than 300 soldiers. An attempt by the paraders to enter the foreign settlement was blocked by the police.

Reports received here from Canton declare that the dictator has had arrested and deported thirteen Russians, formerly employed as advisors to the Canton government and also has caused the arrest of heads of radical student labor bodies.

This sudden action by the Canton for the paying of the way to a discontinuance of the boycott against Hongkong and the resumption of British and Chinese relations.

M. Borodin, chief soviet Canton advisor, according to a statement published locally, minimises the Canton action, declaring that the thirteen Russian deportees already have completed their service terms, hence the soviets entertain no apprehensions regarding the changed attitude of the Canton government with respect to the Russians.

MEXICO ISSUE SOLUTION NEAR

Dispute Imminent

Regulations Today

to be Liberal

INJURY KEY WORD

has concerned himself with the Mexican situation, is the crux of the whole controversy.

President Calles has said in plainest of language that the law will be rigidly enforced, and so has Luis N. Morenes, Minister of Commerce, Industry and Labor.

Although the controversy between Mexico City and Washington has been going on for months, the arguments advanced by the State Department have remained shrouded in mystery. Not one of the notes that this government has dispatched to Mexico since the beginning of the year has been given to the public.

About all that is known concerning the nature of the negotiations came from a White House spokesman who declared President Coolidge was convinced that matters were progressing toward a satisfactory conclusion. Has that satisfactory conclusion been reached? Tonight the Jmpression is that the question is about to be answered, probably before tomorrow night.

The American properties involved in the controversy total into the hundreds of millions of dollars and are in every part of the republic, but principally in the so-called prohibited zones, which are all territory within 100 Kilometers of the land boundaries and fifty kilometers of the seaboards.

Under the law as promulgated, all lands within the prohibited zones which were acquired prior to 1917, can be retained for the lifetime of the present owners but must be disposed of to Mexicans within five years after the death of the alien owner. In the land law as written, there is no provision to guarantee that the owner, or his heirs will receive a fair return for the property he may be compelled to surrender to a Mexican national or nationals. This is one of the principal points involved in the controversy.

MEXICO REPLIES TO

WASHINGTON OIL NOTE MEXICO CITY, March 28.—
Mexico's reply to the third note of the United States relative to the land and oil laws was handed to Mexican Ambassador Tellez in Washington today. Foreign Secretary Saenz said tonight.

This note is in reply to one received about two weeks ago. The foreign minister did not indicate the character of the reply.

DEATH OF BRIDE **ENDS HONEYMOON**

(BY A. P. NIGHT WIRE) CHATTANOOGA (Tenn.) March 28.-Mrs. Maria Gonzales, wife of A. De R. Gonzales, secretary of the Spanish Embassy at Washington, was fatally injured yesterday when an automobile in which the young couple were fouring the United States fe'l, over an embankment near Athena, Tenn. Mrs. Gonzalet died a few hours later. Mr. and Mrs. Gonzales have been in the United States only a short time. The trip which they were making was said to have been the continuation of their honeymoon started in Spain a few weeks ago.

ARIZONA AWAITS RIVER BILL FATE

Agitation Suspended Pending Swing Measure Action Hunt Reported Concocting

Press Urging Conference With Popular Voice

Taxless Mirage

PHOENIX, March 28.—As far as Arizona is concerned, all is quiet on the Colorado, though occasional inquiry is made about the zona conference. Around the Statehouse it is understood that local agitation has been suspended, awaiting Congressional action on the Swing-Johnson measures, pos-sibly leading toward some national plan sgainst which the strength of the Arizona administration may be concentrated. Just now, there seems to be nothing to attack.

While the Highline Canal Association has made additional filings on the river, understood to cover all the available damsites within the Grand Canyon, the highline idea is understood to be given slight consideration around the executive offices. Yet Gov. Hunt has made pronouncement of a plan slight consideration around the executive offices. Yet Gov. Hunt has made pronouncement of a plan under which Arizona may issue bonds in some unspecified, though enormous sum, for the building of a dam or dams, the cost to be repaid through revenues to be derived from the sale of power to unknown and nonexistent consumers. The Highline filings have been accepted by the State Water Commissioner, but do not appear to have had action on the part of the Federal Power Commission. Some of these filings infringe upon prior filing rights of several corporations. They are declared to have been made on behalf of the State, though the State in nowise has any connection with the association. Possibly in existence is a gentlemen's agreement under which the rights that may be acquired shall be turned over to the State, in the event the Governor shall secure the few hundred millions of dollars that would be needed to build the works contemplated.

OPEN CHINESE SCHOOL Bay City Orientals Provide Traditional Training for Youths

[EXCLUSIVE DISPATCH] SAN FRANCISCO. March 28 .-That little Chinese-Americans may not forget their native tongue, a large and expensive school buildlarge and expensive school building of the Sam Yup families was dedicated in Chinatown this afternoon. The Chinese school was designed in Chinese school was designed in Chinese architecture. The Sam Yups of the Young Wo district of Canton are the pioneer business men of Chinatown and are at the same time the buwarks of conservative Chinese philosophy. While they have recognized the value of American education in San Francisco schools, the leaders of the Sam Yup group have decided that their children must have two educations, a course of Chinese training to form a solid basis for the modern American schooling.

These Chinese business men long ago agreed that there was no substitute for real Confucian honesty and traditions of respect of parents in the rearing of the young. They investigated American schools and found no provisions for the training of children in the respect of their fathers as the Chinese see it. So they have consistently augmented the public school work given their boys and girls with Chinese schooling.

DRILLING FOR WATER ing of the Sam Yup families was

DRILLING FOR WATER TUCSON (Ariz.) March 28.-Orilling for water is being proseouted on the proposed site of the Portland cement works near Vaileast of Tucson on the Southern Pacific line. The company already has developed its tract, securing 200 cores by diamond drilling. The quality of the material is said to be good, and the only question now is a sufficient water supply.

TEXCLUSIVE DISPATCH WASHINGTON, March 28 .- The CHICAGO, March 28.—The an-clent complaint of publishers that poetry does not sell has been dis-dustries which depend upon such credited here by some recent re-markable sales records. Publishers, cabinet woods, drug and oil plants.

Vatican Denies Aiding Brazil in League Row

in the United States has been announced by the American Telephone and Telegraph Company. The saving is made possible through a financial arrangement reducing the charges levied on ussociated companies for telephone rentals and service, which last year afforded the American Telephone and Telestraph Company a revenue of \$34.354.400.

This reduction to associated companies is the first ever made by sion of Germany. The paper said: panies is the first ever made by the parent company. The charge hitherto has been at the rate of 4 1-2 per cent of the annual gross receipts of associated companies. This percentage is reduced now to 4 per cent. No reason for the decision to lower the service and rental rates was given at the offices of the American Telephone and Telegraph Company here except that it was "good business."

SPECIAL TRAIN PLANNED TUCSON (Ariz.) March 28.—
Preparations are being made for sending a solid Pullman train from Arizona to Chicago, on a pligrimage to the Twenty-third International Eucharistic Conference, June 26 to 24, next. Allotments have been made of two cars each for Phoenix and Tucson and one each for Douglas, Bisbee and Globe. The train will leave Tucson June 17.

PRISONERS' LIPS SEALED BY FEAR

Refuse to Expose Methods of Punishment

Alabama Anvestigator Met With Silence

Compares Cruelties With Ancient Tortures

BIRMINGHAM (Ala.) March 28. aled, lips in Alabama prison camps have proven "impassable barriers" to investigations of asserted inhuman treatment of convicts, James Davis, Jefferson County Solicitor, said in a statement published today. He announced vestigation int othe death of James W. Knox, former Ravenswood (W. Va.) youth who died at Flat Top mine camp in August, 1924, ten days after he began serving a two-year sentence for forgery. Davis said the Knox case "is the first concrete example we have been able to uncover, develop and work on."

Davis said the Knox case "is the first concrete example we have been able to uncover, develop and work on."

"Had Knox survived." he added, "we would not have heard anything of the inhuman punishment. Not until some of the prison companions of Knox and other witnesses are out from under the mastery of prison management, can statements be obtained in the case." The Solicitor cited other cases he attempted to investigate at the prison omnines, and said he was always confronted with the same problem—refusal of the convicts and guards to talk. Davis said he was frankly told by convicts when he sought information about mutinities or other outbreaks that they dared not make statements because if they did they would "suffer untold misery and punishment."

Mr. Davis said some of the forms of punishment still in use in the prison camps are comparable to the "savage and inhuman treatment of ancient days when the thumb screw and rack were used." Convicts punished in "dog houses, where they are pressed and cramped, frequently are sent to hospitals as a result, he declared. Grond juries of Jefferson county, he charged, have gone to camps for inspection and were refused admission and prevented from making investigations.

ACETYLENE TEST FOR AUTOS SUCCESSFUL

[BY CABLE—EXCLUSIVE DISPATCH] PARIS, March 28.—The Automobile Club of France has announced that the test for the substitution of acetylene for gasoline in automobile motors have given complete satisfaction. An enthus statute each for the substitution of acetylene for gasoline in automobile motors have given complete satisfaction. An enthus statute each that the econstitution of acetylene for gasoline in automobile motors have given complete satisfaction. An enthus statute report states that the econstitution of acetylene for gasoline in automobile motors have given complete satisfaction. An enthus statute report states that the econstitution of acetylene for gasoline in automobile motors have given in principle, will mark the motors have given in principle, will mark the

nplete satisfaction. An enthucomposee satisfaction. An entitle static report states that the economy amounts to about 50 per cent, with no increase in the consumption of lubricants and no bad effects on valves, cylinders or pistons. The acetylene generated is the usual carbide mixed solution, composed mainly of benzol.

Crossing Accidents

Red or Green Lights Reveal Driver's Intentions

Colors Visible Only to Cars at Right or Left

BY FREDERIC J. HASKIN
[EXCLUSIVE DISPATCH]
WASHINGTON, March 28.—A young man of Washington believes has solved the problem of street intersection accidents. At least he thinks that he has invented device which if generally adopted will do away with much of the indecision displayed by drivers reaching a street intersecestimated that over half of the automobile accidents during the year 1925 occurred at street cross-

years ago he wondered why some by a driver might indicate to one coming from a cross street just what his intentions were. Of what his intentions were. Of course, during the day it is possible to signal the other driver to go ahead by waving the hand. At night, however, this is not feasible. Who has not seen two motorists either rush ahead, each thinking the other will stop, and stage an Alphonse and Gaston!

Mr. Cooper eventually became discouraged with the idea that some one sise would conceive some device to do away with this street crossing annoyance and danger, and decided to undertake it himself. That was nearly three years ago and since that time he has given the matter more or less thought. This winter he decided seriously to work on the idea and the result is a signalling device which may be used on the front of the car.

The device consists of either a

the result is a signalling device which may be used on the front of the car.

The device consists of either a disc or cylinder which may be made of some nickel-piated metal. It is, of course, against the law to have any light showing on the front of a car, other than the headlights. Therefore, the lights used on this signalling device must show only from the sides. There is a red light which burns constantly while the car is in normal motion. A car coming from the east or west, meeting one coming from the north or south, would, of course, stop when the driver saw the latter's red light burning. There could be no possible doubt in hig mind as to what the other driver intended doing.

NO MISUNDERSTANDING As soon as the driver applies his brakes and pushes out his clutch, the red light automatically goes off and a green one comes on. The driver coming from the other street then knows that he is age in going ahead. Mr. Cooper says that the change is instantaneous with the slowing down of the car so that there could be no possible misunderstanding of the driver's intention;

so that there could be no possible misunderstanding of the driver's intention.

Under the first patent taken out, this signalling device was operated mechanically. That is, there was a revolving cylinder which showed a red light while the car was running, and when slowing down this went out of sight and the green one came into view. Under the second patent it is operated electrically, the red light being automatically switched off when the green one comes on.

While Mr. Cooper's invention has not yet been placed on the market, he has been using a model on his car for several months and it has operated without a hitch. It has operated without a hitch. It has created considerable inferest among automobile drivers of Washington, and has been termed an excellent idea by traffic experts.

As Abe Martin once said, "One good story brings on another," so apparently does one idea bring on another. In the first place Mr. Cooper has felt that the logical place for such a device as his would be on the radiator top, which position on most cars is occupied by the motometer. The importance of a motometer is generally acknowledged, and, therefore, it is extremely unlikely that the public would even consider anything which would necessitate doing away with it.

Thus was, a problem raised, the only solution of which appeared to

which would necessitate doing away with it.

Thus was a problem raised, the only solution of which appeared to be a combination of motometer and light signal. If any of the motometers now patented were used, it would necessitate the payment of royalties to the owners of the patents. In turn this would probably mean that the new device must sell at a higher price. Altogether the inventor was not inclined to include some one else's idea with his if it could possibly be avoided. The only thing to be done was to work out an entirely new one.

MADE VISTRIE AT NOWE.

MADE VISIBLE AT NIGHT
The motometers in use at present are not visible at night from
the driver's seat, and Mr. Cooper
was of the opinion that while he
was designing one to meet his uses
in connection with the signal system, it would be a good thing to
make one that might be seen as
clearly at night as in the day time.
Since he has not as yet taken
out a patent on this new idea, it
is not possible to give a definite
description of how it will work.
Suffice it to say that it will work.
Suffice it to say that it will probably take the form of a triangular
piece of red glass, placed in the
center of the signal device. As the
engine grows hotter and hotter the
glass will become brighter and
brighter.

FIGHT ON PROBATE OF McDONALD WILL FAILS

[EXCLUSIVE DISPATCE] PARIS (Tex.) March 28.—Relatives contesting the will of the late W. J. McDonald, aged Paris capitalist, bequeathing \$1,000,000 to italist, bequeathing \$1,000,000 to the University of Texas for a memorial astronomical observatory, lost their initial fight against the validity, of the will here. The instrument was admitted to probate in County Court, but attorneys immediately offered notice of appeal to District Court. H. L. Baker and James Caviness, who said they signed the will as witnesses, testified that McDonald was mentally capable of making disposition of such property on the date the will was asserted to have been drawn. Contestants contend that McDonald, \$1 years of age at the time of death, was not in a condition of mind to fully appreciate his ac-

NOW OFFERS THE "SUPREME" VALUES

See this "Greatest of All" Tailoring Shops, and THEN know why these "Super Values" can be had.

The business of this insti-tution was built upon a solid foundation of QUALITY. The

tution was built by the foundation of QUALITY. The tailoring service we have rendered to my 29,000 patrons is something I have every reason to be proud of. And the men whom I have secured to give you men this HIGH-CLASS tailoring service are as proud of their work in making these wonderful suits as you will be to wear them. The fact that when I make a Two-Pants John Wright Suit for you I back it up with an Ironclad Guarantee of perfect satisfaction is the insurance you have of getting your money's worth. And my responsibility is of such magnitude to the thousands of men whom I am attracting to my Tailoring Establishment that every precaution necessary every precaution necessary to the fulfillment of my prom-ise to make you the best Two-Pants Sult in the United States is taken, so that your COMPLETE SATISFACTION

COMPLETE SATISFACTION IS POSITIVELY A CERTAINTY.

To realize the scope of the John Wright Tailoring business, take the time to make an inspection of my big shop. Come up and see for yourself the busy workers. See the tremendous stock of fine woolens I have upon my shelves and tables for your consideration.

shelves and tables for your consideration.
See the hundreds of finished garments ready for delivery. See the leading Tallors and Designers of this city at their work of making these famous John Wright

See the BIGGEST and BUSIEST talloring shop in the United States for yourself, and then understand WHY it is possible for me to make you a suit for \$34 or \$44 that stands on a par with ordinary one-pants hand-medowns selling for twice that amount.

amount.

And right now while the biggest lot of fine woolens ever shipped to Los Angeles is on display, come up and make your selection for that Easter Suit.

OF HIS LONG CAREER

and

Buying in big lots, making suits in arge quantities are two essentials for "High Quality" and moderate

est possible price for which

Greater Values Made Possible Thru Greater Buying Power

The one and most Important thing I desire to impress upon you men who read this message is this—That IF I DID NOT LIVE UP TO THE LETTER OF MY WRITTEN PROMI. ISE I MOST ASSUREDLY WOULD HAVE NEVER BECOME THE WORLD'S LARGEST TAILOR OF TWO-PANTS SUIT AT 584 AND 544.

The fact that I have used my enormous buying power to force the price of fine weelens down to this lowest possible figure is one of the real reasons why I am in a position to effect materials in these two-pants suits at \$34 and \$44 that can be found only in the usual one-pants suite in the price of the price of the second price concession. I organized myself to be able to do this very thing. I knew that I were to accomplish my purpose of becoming the largest custom tailor I had to be in a position to give a value axceed anything offered by anyone anywhere. To give real VALUEs achievement of my long career in the tailoring business.

You men who have been accustomed to paying considerably more for ordinary hand-me-downs—You men who have been accustomed to paying considerably more for ordinary hand-me-downs—You men who have been paying excessive prices for ordinary sults—sults that we supposed to be made by a QOOD tailor—You men who have been paying excessive prices for ordinary sults—sults that were supposed to be made by a QOOD tailor—More than 29,000 men in Los Angeles alone are patrons of John Wright, the largest tailor in this country of Two-Pants Suits at \$34 and \$44, keeps this great establishment humming.

More than 29,000 men in Los Angeles alone are patrons of John Wright, which represents the best testimonial as to the merit of the tailoring services.

W ICING PLANT

senting an investment of about

C. D. Pruner prescoling plant constructed on the Santa Fe right of way here last season, the new establishments will give Exster what is declared the greatest precooling capacity in California.

The Rocky Hill Association, with T. A. Pogue, and his son, J. W. C. Pogue, as managers, is one of the ploneers in packing of citrus and deciduous fruits and grapes in the district. Their plans call for a new deciduous and grape packing-house, with basement for storage, in addition to the cold-storage and icing plant.

The cold-storage plant will have a capacity of forty-nine cars, deciared the largest of any in the State. Capacity of the ice-making plant will be twenty tone daily. Early plums will start the first pack of the new house, which will operate throughout the summer tuntil grapes come in. The season's run is estimated at about, 200 cars each of peaches and grapes, while other fruits will probably total fifty cars.

FOR APRIL

BURGLAR REPEATS

ONTARIO, March 28.—A. L. Scott was not unduly concerned the first time the daylight burglars ransacked his dwelling at 1013 Nocta street, but when the performance was repeated he decided it was getting to be a habit, according to his report to the police today.

On the first occasion the burglar gained entrance by forcing a side window. On the following day entrance was gained by use of a key, which members of the family had placed in a supposedly secret hiding-place on a front porch.

ing-place on a front perch. reet hiding-place on a front porch. In departing the thief took the key with him, it is said.

Although the house was thoroughly ransacked on both occasions, Mr. Scott reported that the only thing missed so far is some \$2.50 in small change. In both instances the house was entered between 7 and 11:30 o'clock a.m.

LONG BEACH PLA FLAG DESIGN CO

PLATICAS DE LOS LUNES

En el segundo parrafo de la Platica 416 dice "Platica" por "Platica"; en el ejemplo 1 de la de "la pipa de Neso".

"Platica 416 dice "Platica" por "Platica"; en el ejemplo 1 de la misma dice ares Galdos" por "Pères Galdos". En el 16, "ceracera" por "cerâcea". En algunos ejemplos de las Pláticas 416 y 417 aparecen sin acento, "Marques", "Bazán", "álgido", etc.

Con respecto al uso de la vos "dermatológicas" en el ejemplo 1 de la Plática 416, dice lo ejguiente el señor de Toro: "Dermatológico" es lo relativo a la dermatológico, com celativo a la dermatológicos, cinicas dermatológicas; pero no ha de usarse la palabra en el sentido de la sermatológicas; pero no ha de usarse la palabra en el sentido de la cermatológicos, cinicas de "cutâneo", como lo hiso el ilustre don Benito Pères Galdós en el ejemplo citado, que sería bien modificar así: "La consulta de enfermedades de la piel (outâneàs) en San Juan de Dios".

En el pasaje 2, de la señora Pardo Bazán, y en el 3, tomado de Sicardi ("Libro extrano", X), está usada la palabra "deliquio" como wi significara "pasión amorosa", "arrobo o extasis amoroso", cuando no significa en realidad sino "desmayo o destaliscimiento", "The world" said Mr. Tagura.

de Sleard ("Libro extrano", X, está usada la palabra "delquio" como si significara "pasida marore sa", "arrobo o extasis amoroco" como si significara "pasida marore sa", "arrobo o extasis amoroco" como si significara "pasida marore sano "desmayo o destallectmento" según puede verse en el diccionario: es decir, denota un estado qui como dice el señor de Toro, nada tiene de deleticos. Puera, pues dos frases: "Quintín con su esposa, era un insensible gastado, ya no sólo para la pasión amorosas sino insiste para el carifo fratera arrobos (extasis) de los amores almo insiste para el carifo fratera arrobos (extasis) de los amores inmorales. Para el carifo fratera arrobos (extasis) de los amores el moro de sentencia de "herido", "viotima", y hasís el de "a persona de quien se había", diciendo, por elembo: "Estabamon despelico cundo catate ani que se va presentando la interfecta". En discuipable que quienes no cultivan las lairas repitan los barbatriamos que emplean "interfecto" en los elembo, de designa a una persona muerta volentamente. Es, puesa limposible que un "interfecto" en los elembo, de la como despelico" de la como despelico de la como despelico de la como despelico de la bodo "auces" que son tolen que emplean "interfecto" en los elembo, de la como despelico de la bodo "auces" que de de vocablo "auces" de de vocablo "auces" que de de vocablo "auces" que de la consenta de principio de la parte por de vocablo "auces" que de la consenta de

and new Bank just completed, for this beautiful powing residential accomplete Secu-arrice, including a Deposit Depart-

mas, creyendo que esa vos se deriva de "cera", la aplicas al color de deta. Tai courre con les autores de las frasca 11, 13 y 13. La afición a indicar el color de cera conduce a Vargas Vila a los disiates aun mayores de llamarie "cera" en la frasc 14, y "ceramico" en la 15.

Por poco españel que sepa el estudiante angioamericano de esa lengua, no puede ignorar que "ceral", voz identica a la inglesa, es adjetivo y austantivo derivado de "Ceres", nombre de la dioca romana de las miseses y los granos. Aplicase a las piantas gramíneas (grain plants) que producen granos farináceos comestibles, como el trigo, el centeno, el maís, la cebada, el mijo, etc. Liamar "cereal" al color de la cera es, pues, imperdonable gazafatón.

No lo es menos llamarle "cerámico", que es lo relativo a la "ceramico", de codas classes y calidades. En tal virtud, "ia palidez cerámica" de que nos habla Vargas Vila no puede ser de cera, como hace notar el señor de Toro, sino de botijo, de cazuela, o de cualquier cosa figulina.

El adjetivo "aberigen" se aplica a los hombres animales con plantas les hombres animales con plantas les hombres animales con plantas la condita de que nos habla Vargas Vila no puede ser de cera, como hace notar el señor de Toro, sino de botijo, de cazuela, o de cualquier cosa figulina.

BANK

tar el señor de Toro, sino de botijo, de carnela, e de cualquier cosa
figulina.

El adjetivo "aborigen" se aplica
a los hombres, animales o plantas
originarios del suelo en que viven,
y así hablamos de las tribus aborigenes o de los árboles aborigenes
de América. También se dice deilos primitivos habitantes de un
país colonizado o conquistado por
otro pueblo: "Los aborigenes de
los Estados Unidos son los indice".
Pero tomar "aborigen" por sinónimo de "antacesor", "antepasado"
o "progenitor", como lo hace el
señor Sawa en la frase 17, es algo
inusitado e inaceptable.

En la frase 18, debida a la briliante pluma de Rubén Darío, si
bien no puede señalarse ningun
error gramatical, si es de extrañar
que hable el poeta de un objeto—
la pipa de Neso—que la mitología
no menciona. A este respecto nos
dice lo siguiente el señor de Toro:
Neso fué aquel centauro que, habiendo querido robar a Deyanira,
mujer de Hércules, fué herido por
éste con unsisaseta mojada en la
sangre de la hidra de Lerna. Al
morir entregó su tínica a Deyannira como talismán que habla de
devolverle el amór de su espoco,
si éste la abandonaba. Llegada la
ocasión, Deyanira le entregó la túnnica al pobre Hércules, que murió
abrasado por ella.

"One-Profit" Studebaker Wins the World

One-Profit Value and Unit-Built construction have made the Studebaker Big Six the world's fastestselling high-powered car BIG SIX SEDAN

THIS is the car that has won a world tribute to One-Profit manufacture. All over the globe the Big Six Studebaker outsells every other car of equal

American automobile exports increased 44% in 1925 over 1924, but Studebaker exports increased 63%.

Only seven American cars, according to the rating of the Society of Automotive Engineers, have more power than the Big Six—and they sell at two to four times its price.

Not only does the Big Six offer a powerful, depend-able, sweet-running engine, but also a staunch body construction which is not excelled by any car at any

Not one of the other cars which exceed the Big Six in rated horsepower enjoys the Big Six advantages of volume production or of One-Profit manufacture.

Few motor car "manufacturers" have foundries, forges, etc., to make their own engines—yet one-fifth of the cost of an automobile is in the engine. Even fewer build their own bodies—yet one-third of the cost of a

Not only does Studebaker make all bodies and all engines used in Studebaker cars, but also all clutches, gear sets, springs, differentials, steering gears, axles, brakes, gray-iron castings and drop forgings. Only Studebaker in the fine-car field enjoys the benefits of such complete manufacturing facilities.

One-Profit Value

These facilities enable Studebaker to manufacture quality cars on a One-Profit basis. They enable Stude-baker to eliminate the profits of outside parts and body makers. Many major savings are thus effected and passed on to the ultimate buyers of Studebaker cars,

Studebaker facilities result, too, in Unit-Built construc-tion—in cars designed, engineered and built as units. The hundreds of parts used in a Studebaker car func-tion together as a unit, resulting in greater riding comfort and scores of thousands of miles of excess

Always Kept Up-to-Date

Because all phases of manufacture are directly under Studebaker control, Studebaker cars are constantly kept up-to-data. We add improvements regardless of the calendar—we do not save them up for spectacular annual announcements which make cars artificially

For a complete illustrated story of One-Profit ma sacture and for a beautiful colored catalog of Big Six Studebakers drop a postal or a letter to the Studebaker Corporation of America, South Bend, Ind. Ask for Combination C-410.

These fine One-Profit Studebahers may be purchased out of income at the lowest time-payment rates known to the automotive industry STANDARD SIX—Duplex-Roadster, \$1330; Duplex-Phaston, \$1355; Coach, \$1415; Sport-Roadster, \$1505; Country Club Coupe, \$1515; Sedan (Wool Trim), \$1535; Sedan (Mohair Trim), \$1835.

first half, but so sound was the defense set up by Tunicilife and Barbour, aided by Betteris-Mom. Middletm. Malors and Byla (Continued on Page 13, Column 3) Baggitck, Krusger; Barsaba, Elanksuchty and Rannal.

MIDWICK **POLOISTS** World's Fastest Human to Appear in Exhibition Race TRIUMPH

"Big Four" Score 9-to-6 Win Over All-Stars In Fast Match

applause.

Teddy Miller and Carleton
Burke played the most consistent polo for the Midwick
team. The former scored four
goals while the defensive
strength of Burke prevented
the visitors from scoring more
often than they did. Erio
Pedley got started in the closing chukkers and piled up a
total of three tailies. Perkins,
as usual, featured with his
brilliant, consistent back-hand
shots.

The score was tied 6 to 6 a

there goals in the second half, three of them being made in as many minutes. In the opening stama, the Thisties showed up well against Hollywood, and it looked as if they would succeed in making a good game of it.

The closing half had hardly got under way, however, before the rout of the Thisties started and which did not end until the net had been bulged six times. Copeland started the rout with a longrange shot, and Parky followed with two goals.

Following this reverse, the Thisties steadled for a time, but Jimmle Smith again put the skids under them when he negotiated a nice goal. Parky again followed with two more goals.

Goalle Rankow of the Thisties gave a great exhibition of goal tending in the first half and also succeeded in making several remarkable saves in the second period when he was bombarded by an avalanche of shots.

The club again demonstrated their championship caliber when they trounced the Vikings in a foat and exceptionally keenly contested game. The final score was 1 to 0 and the issue was in doubt until the final whistle.

Billy Downie gave the club their lone tally early in the first half, but so sound was the defence set up by Tunicidiffe and Barbour, aided by (Contipmed on Page 15, Column 3)

IN GRIFFITH TITLE TOURNAMENT

By Bill Wise

A remedy for the lack of accommodations that has annually worked a hardship on
the local golfing fraternity
and the Ojai Valley Country
Club alike, comes with the announcement yesterday that
the resort authorities will authorize an addition to the club
home, containing forty modern rooms, that will be completed within the next few
months.

And if the foregoing isn't

months.

And if the foregoing isn't good news for the fraternity, the fact that golf officials are planning a standard caddy wage should be. The second factor is becoming more important with each major event and local authorities are going to find out just why it is necessary to double the bag-toters' stipend—more or less at the discretion of the inviting club.

Accommodations have always been limited at Ojal and the annual club invitational has failed to draw a proper entry. Ojal is one of the finest courses in the country, comparing more than favorably with Pebble Beach and others. The golf test is of the stiffest and competition is always spirited. Local hotels are usually filled and in years gone by it has been impossible to properly care for players in the invitational tourney. This has robbed the up-State event of many entries—and galieries are not even thought of.

When the new club accomodations are thrown open it will do much to solve the difficulty and will offer an added inducement to local players to enter any Ojal golf events. The Ojal club kitchen has always ranked with the finest in the land—club hospitality has never wavered and living accommodations at the club should round out a week-end proposition that will help Ojal—and golf.

April, the month that fools them back East, promises to

week-end proposition that will help Ojal—and golf.

April, the month that fools them back East, promises to be a banner one for local golfers. The Los Serranos invitational opens Wednesday and a fine field is expected to play in the 38-hole medal event. Players will quality in three classes, scratch to six, seven to twelve and thirteen to eighteen, for suitable divisional gross and net trophies.

An added feature that is going to appeal is the fact that the qualifying round may be played either Wednesday or Thursday and if the entrant lands among the thirty-five low scores in each class, the final 18-hole round may be played either Friday or Saturday. Suitable cottage and bun galow accommodations have been provided for all entrants who wish to remain overnight. A golfing dinner dance will close the invitational Saturday night.

Concluding with a fell-steed cheer for Capi. A. Bullock-Webster, new Northern California amateur champion, and one of the finest golfing gentlemen the State has ever known. Capt. Webster, former State amsteur titlist, has been fighting to come back for many, many months. He arrived yesterday and won the northern crown in true championahip fashion, defeating the best the north rightfully boasts of.

Fine Course Offers Golfing Surprise to Fans

Cinema Colony Flocking to · Club Escutcheon

BY THE GOLFER President James R. Irefield and

witational that will officially introduce one of the fires to courses in the West to more than 300 players, who will start qualifying in the event Monday, April 26.

Much has been said about the Lakeside Club, particularly the golf layout that offers one of the stiffest tests in the country. When Lakeside was first opened the eighteen putting surfaces offered were practically "too good to be true." Greenskeeper Wilson spent more time manicuring, clipping and brushing those greens than he did with any other part of the course. Lyman Carrier, internationally famous grass expert, after a careful examination last week, promounced the greens perfect and attributed much of their value to the care they had received. The Lakeside fairways are also coming along in fine shape. Max Behr, of Wilshire who designed the course, crashed through to something entirely new in California golf architecture and planned and replanned a course that offers many of the most interesting shots imaginable.

While Lakeside grew rapidity, great care was taken before any applications were passed upon by the membership committee and as a result the organization personell is of the finees. Neal Burns, one of the most popular members of the Hollywood cinema fraternity, blased the way for more than three-score fellow members of the industry, including Douglas and Mrs. MacLean, George Marshall, Frank Bortage, George Melford, Frank King, Mr. and Mrs. Lynn Reynolda, Anna Q. Nilseon, Duke Willington and many others representing the very best in Cinemaland.

Club social affairs have kept abreast of the fine golfing program that is unfolding weekly.

the very best in Cinemaland.

Club social affairs have kept abreast of the fine golfing program that is unfolding weekly. Howard E. Beall, former ranking British amateur, has been in charge since shortly after the course opened, and has done much for many of the fast-growing playing membership. Bealdes being a very fine player himself. Beall has the personality and ability to instill his technique in others, and Lakeside is now represented by some fine players. The course alone is warranted to improve any players game, and

In the spring handleap tourney, the first major club event, F. H. Beekman has reached the finals in the six-ty-four-player bracket, and after starting with an eight handleap, has been cut to six. Neal Burns and George Cornes will play either today or to-morrow for the right to meet Beekman in the finals of the event that will be an annual feature.

S. B. Brennecke Draws Feature at Hollywood

BY THE BULL HENRY

THE other morning in the sporting pages of this paper Mr. P. Lowry has been chatting of the old-time high-jumpers. We're not of any mind to argue about the high-jumpers, but might mention while passing that in addition to Munger, the great Pomona high-jumper, there were a lot of other "giants" in the old days. Fred Thomson of Occidental, and Richardson and Trotter of U.S.C., were all-around stars whose work since has only been approached by Cliff Argue of Oxy. Otto Anderson of U.S.C., and Chuck Lewis of the LA.A.O. We don't believe that any pole-vaulter that ever livred was as good as Borgstrom of U.S.C. was nearly fifteen years ago. And, incidentally, while Paul is considering high-jumpers he shouldn't forget that Cliff Argue, at the Drake Relays four years ago, cleared sit. Sin., along with Harold Osborne, holder of the record, and Osborne then put the bar up to 6ft, 6in. Argue cleared it, on his third trial, just touching it as he was coming down and touched it so lightly that he was almost out of the Jumping pit before it fell off.

A thoughtful correspondent, "D. D.," sends us a copy of HE other morning in the

that he was almost out of the Jumping pit before it fell off.

A thoughtful correspondent, "D. D.," sends us a copy of the speech made by Robert C, Benchley, humorous writer of Life, before the Princeton alumni recently in New York. Benchley is a Harvard man and, having a fine sense of humor, was thoroughly capable of kidding his own team. The speech, which was published in the Princeton Alumni Weekly, is too long to print in this column, but it certainly has some spots in it that would be good for a laugh even at Harvard. Horefers to the "Yale-Harvard championship game" as having been played for the championship of the colleges situated along the main line of the New York, New Haven and Hartford Railroad and kidshis own college and its biggest rival unmercifully—all of which was doubtless a big hit with the Princetonlans.

After going into the history of football, he says, "There is no doubt in my mind but that Princeton pays too much attention to football, and all other Harvard men I know feel the same. There is a student committee being formed at Harvard men that it would be enough if the Princeton team got together for the first time on the Friday before the Harvard game. I shw the Princeton. It seems, to us Harvard men that it would be enough if the Princeton team got together for the first time on the Friday before the Harvard game. I shw the Princeton to win that game. The Harvard men day's preliminary work would have been sufficient for Princeton to win that game. The Harvard men sufficient for Princeton to win that game. The Harvard men would have been sufficient for Princeton realized that football isn't everything in life, and the sooner Princeton realizes it, the better—for Harvard."

Apparently we started something the other day when we predicted a greater football season this fall and sregested that the fans would soon be putting in their applications for season tickets to the Collseum. The latter suggestion seems to have been taken seriously and we have now received no less than three letters urging that the Collseum management set aside season tickets for certain seats. While the games at the Collseum are played under half a dozen different managements it looks rather difficult to arrange for such a scheme, but mebbe Zack Farscheme, but mebbe Zack Farschemes and the collseum are played under half a dozen different managements it looks rather difficult to arrange for such a scheme, but mebbe Zack Farscheme, but mebbe Zack Farschemes

"Have a Camel"

No cigarette satisfies the taste like a Camel

HAVE a Camel, and let your taste be satisfied! Millions of experienced smokers just wouldn't buy or smoke any cigarettes but Camels.

Camels are so different from other cigarettes. So glorious in flavor and fragrance. Because of their choice tobaccos and perfect blending, Camels are all pleasure, pure golden contentment. Nothing is omitted to make Camel quality the biggest sensation in the history of smoking. Camels give you the utmost in cigarette enjoyment.

Right here you have the reason why Camel makes—and keeps—so many friends: Camels satisfy the taste as no other does. They never tire the taste or leave a cigaretty after-taste no matter how freely you smoke them. And what a glowing contentment their goodness brings! Camels are the only cigarettes in the world that have the completely satisfying quality. For your taste's sake, demand them. Their pleasure-bringing goodness is your right. Have a Camel!

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

CHUCKLES from LIFE

The Night Moths

OUT of the night to my mountain porch they came,
A thousand moths. Did He who made the toad
Make these and give them to the starry road?
Ardent, unstill, they circled 'round the fiame—
These wonder shapes that man can never tame—
Whirled like the first flakes of the winter snows;
Tinted with amber, violet and rose,
Marked with hieroglyphs that have no name.

Out of the summer dark they poured in flight.
To vanish down the secret roads they keep:
Unseen they go on their mysterious sweep.
Who called them to this rush of mad delight?
Do they go lost and aimless to the deep?
Why this rich beauty wandering the night?

The customer (in drug store:)
You seem to have everything a this place but what a man ter in the Bible, Uncle Ajax?"
And about how much that would you like, sir?"

The Apostles Renamed "What is your favorite chapter in the Bible, Uncle Ajax?" an old darkey was asked.
Uncle Ajax smacked his lips. "Dat one whar tell about de twelve opossums, suh!" he replied.

A formal dinner is incomplet without nuts. Invite a few.

Fire Damage Heavy Blow to Section's Production

New Quarters of City Under This interesting feat was disasted from the Company, who is included in the Company of the Compa

In the anathorized an emergency ordinance soning several sections of the city against oil derricks. A vote of the people on the question will be the final determining factor, it is said.

New Method of Ore Reduction to be in the company which will be given operations early in May. Reconstruction of the smelting operation of the smelting operations are now under construction of the smelter of the Phelps-Dodge Corporation. It plans the purification of copper builting at the time of the proper operation of the smelter of the Phelps-Dodge Corporation. It will be on the Manage of the proper of the Phelps-Dodge Corporation. It will be on the Manage of the proper of the Phelps-Dodge Corporation. It will be on the Manage of the proper of the Phelps-Dodge Corporation. It will be on the proper of the Phelps-Dodge Corporation of the smelter of the property of the Colfield Deep Mines Company with the exploration of the smelter of the property of the Colfield Deep Mines Company and the exploration of the property of the Colfield Deep Mines Company and the property of the Colfield Deep Mines Company and the property of the Colfield Deep Mines Company and the property of the Colfield Deep Mines Company and the property of the Colfield Deep Mines Company and the property of the Colfield Deep Mines Company and the property of the Colfield Deep Mines Company Clifton smeller of the Pneips-Douge
Corporation. It plans the purification of copper bullion at the furnace and production of a pure
grade of copper, ready for utilization by the trades and arts.

All Arizona bullion, with the exception of that from the leaching
plant at Ajo, has to be transported
to the Atlantic seaboard for electrolytic refining. Nearly all Arizona
copper bullion contains a material
per cent of gold and silver. Experiments here have been conducted by J. O. Ambier, smelter
superintendent, in company with
Col. H. H. Stout, metallurgical expert for the Phelps-Dodge Corporation.

The process is said to have been
successful in a small way, and now
efforta are being made to handle
the entire smelter output. If profit
can be shown to attend this new
treatment, the result upon the Arizona mining industry would be almost beyond comprehension.

Shallow Sand as Superior
Hits Oil at Depth

[EXCLUSIVE DISPATCH]
COALINGA, March 28.—In Section 39, 22-18, south of the abantary which connects the upper rod. the rod being clamped to a cross-tar which connects the upper rod. AT COALINGA:

COALINGA. March 28.—In Section 30, 22-18, south of the abanther rod being clamped to a cross-bar which connects the upper ends

COALINGA. March 28.—In Section 38, 22-18, south of the abandoned deep test of the General Petroleum Corporation, Kettleman Hills, the Bolsa Chica Oil Company is testing a sand that shows about six barrels of heavy oil. An 1806-foot string of ten-inch caning is set, the three lower joints perforated, a water shut-off having been procured at 1745 feet.

The Superior Oil Company, in Section 30, southwest part of the Coalinga neld, drilled through eight feet of sand that will make from fifty to 160 barrels of oil, it is estimated, and into brown shale. This sand is slightly desper than any adjacent well and the well will likely be completed at that depth, about 2200 feet.

The Pacific Oil Company is despening and credilling three wells in the Section 18-15, the two former in the southwestern shallow-sand area.

The report reaches here that the Marland Oil Company has filed for record leases covering 2255 acres in Monterey county, southwest or King City in townships 21 and 22, range 8 east. The tracts leased are F. J. Merritt, 220 acres; E. J. Henderson, 240 acres; James 1 S. Plaskett, 320 acres; E. J. Henderson, 240 acres; James 1 S. Plaskett, 320 acres; E. J. Associated Oil Company Plans Handling Heavy Pressure; Would Greatly Extend Field

BY HOWARD C. KEGLÉY

Too wild for further control by any knewn mechanical pro-cess which it would be safe to apply, the Idoyd No. 101 well of the Associated Oil Company was being brought in through the drill stem late yesterday, in the Ventura-avenue field at Ventura.

Speculation as to what the well will yield was rife yesterday, among experienced operators. Some thought that the flow might mount to 4000 barrels per day, with as much as 12,000,000 cubic feet of gas, but the more conservative operators estimated the output at about 2000 barrels daily, with perhaps 4,000,000 cubic feet of gas.

The Pacific Gasoline Company was busy Saturday running a sixteen-inch line from its two absorption plants to the Lloyd lease where a twelve and one-half inch gas line will hook on and reach to the Lloyd No. 101, to take its gas supply into the plant and turn it over to the dry gas supply line. The gas extension may not be completed before the end of the week, and in the meantime the well will probably be on production.

It became evident several days ago that the Lloyd No. 101 could not be held much longer, so the crew undertook to remove the tools from the hole, but this did not appear to be an easy task. It became apparent that the company wasn't going to be able to set the oil string, because of the troublesome gas pressure, so it was decided that if the bit could be gotten out the well will be allowed to flow. This hole is about 5375 feet deep, Each forty-foot section of drill stem has what is termed an upset collar. This collar has an opening an inch and a quarter in diameter. If the well comes in successfully through the drill stem thas gas pressure will be held back by more than 130 of these inch and a quarter in pipes in the drill stem. This is expected to enable the crew to handie the

well without gas pressure damage.

If the well is brought in by this procedure it will be the third well on the Lloyd lease which will be flowing bare-footed because heavy gas pressure made completion in the customary manner impossible. The Lloyd No. 20 and Lloyd No. 21 both have been flowing barefooted for some time.

Completion of the Lloyd No. 101 will extend the producing area of the field at least one mile. The hole is actually two miles east of Ventura avenue, a mile and a half east of the west line of the Loyd lease, and a mile east of the Lloyd No. 21 which has been the eastern outpost producer of the field. Production on the Shell Company's Taylor losse reached three-quarters of a mile west of Ventura avenue, so if the new well proves to be a commercial producer to field will have an east and west spread of two miles and three quarters. The Lloyd No. 101 has a little less than 300 feet of producing sand at its present depth.

It is reported at the field that the Petroleum Securities Company's Willett No. 1 in the Ventura River bottom, on the south dip of the field, has found excellent showings at about 3700 feet. This is the shallow sand which eld producers, farther north picked up at about 3700 feet. The sin the shallow sand wish check the field the top sand at 3800 feet. The crew is drilling ahead fur the deep zone which it expects to pick up at about 4500 feet.

ARTLAND CLUB

Society's First Concert at KHJ Wins Praise

Masons Give Instructive Afternoon Program

Final Weeks of Sponsored Broadcasts Begun

BY PAUL SHEEDY

The Artland Club, prominent organization of Los Angelea, last night made it's radio debut from the tower studio of KHJ with a program presenting an array of artists from 8 until 10 p.m. that immediately placed the club in the highest ranks of broadcast entertainers. Charles Wakefield Cadman, planist-composer, and the Zoeliner String Quartet, both wide by recognized in musical circles, were featured in the concert, with

Rainers. Charles Wakefield Cadman, planist-composer, and the Zoellner String Quariet, both wide. If yrecognized in musical circles, were featured in the concert, with John Claire Moniteth, concert baritone, and William Bone, monologist, rounding the program.

The concert was opened by the Zoellner quartet, composed of Joseph Zoellner, first violin; Amandus Zéellner, second violin, and Joseph Zoellner, Jr., 'cello, followed by Mr. Montieth's first vocal selection, and then the initial microsphone appearance for the svening of Mr. Cadman, who gave one of his compositions that has endeared him to the world of music lovers. Lilyan Arlei, accomplished concert planist, frequently heard from the tower, performed admissibly as accompanist.

MASONS GIVE PROGRAM

The State Grand Lodge of Masons and the Masonic Digest gave
unother of their instructive and
entertaining programs from 4 to
p.m., presenting a group of arists in addition to addresses. Durng the morning, Dr. Mayer Winkser, rabbi of the Sinai congregaion, appeared at the studie with
special sermon on the Passover,
explaining the symbols, ceremolais and significance of this feast
a the Jewish year.

Today the station enters its final
reek of sponsored broadcasts, with
all advertising programs ceasing at
the close of the Motor Transit
company's program Wednesday
vening. On Thursday, April 1,
the Times will begin its new poly of sponsoring all concerts and
ther features in the firm conviction that radio is an art and should
the free from all taint of commerlatism. MASONS GIVE PROGRAM

FIRST OF NEW PROGRAMS

The first main evening concert under the new plan, given Thursday evening, will include such well-known artists as the Zoeliner String Quartet; Grace Currey, harpist; Gayns Yopen, bases; Lurine Lyons Peirson, reader; Roger Neal, uku-lele; Harriet Andrews, soprano, and others. The same policy of giving stellar musical concerts each evening in the week, except Mondaya, which are always the station's silent days, will be continued, as will all the other features, children's programs, etc., that have made the studio outstanding in the Southwest.

The cards held in the hands for omorrow's broadcast in the regu-ty weekly series of auction bridge ames, as originally played by not-d experts of the country, follow: Wilbur C. Whitehead, the dealer,

"Things have come to a pretty pass when it is necessary to name a fact-finding committee in the Senate to investigate a factfinding commission of the government."
Things have come to a pretty pass, indeed! But where? Not in the country, but

And why is it "necessary" to a committee and start such an investiga-tion? Not because the country is dissat-isfied with the Tariff Commission, which has served its purpose of taking the tariff out of partisan politics, but because it is necessary for the Democratic party and the insurgents to have some kind of campaign issue and, having failed to make a scandal out of aluminum, they have turmed as a last resort to an issue that forty years ago brought to the Democratic party a measure

What is presumably wrong with the Tariff Commission? Through omission and commission, in what has it sinned? The ommission has functioned for three years. During that time it has made eight reports on the tariff schedules. In six cases recommended tariff increases; or, to speak more accurately, perhaps, it submit-ted facts to the President which tended to prove that a higher rate was necessary to equalize the labor costs in this country and abroad. When the Tariff Commission was created the President was authorized by law to make tariff changes, within fixed be demonstrated that the rate was higher than necessary or so low that it permitted dumping of products manufactured in for

After reviewing the facts assembled by the Tariff Commission the President made increases in six schedules, reductions in one and one rate was unchanged. The facts on which these alterations were based are of public record. That more protect tion was and is necessary is attested by the final fact that imports during the past two months were greater than exports and that the balance of trade is now against this country. Those increases in schedules served to keep American industries functioning, to give employment to American workers. If the Democrats had their way many factories in this country would be closed and a reduction in wages would be ecessary in many others. There would be more unemployment and a lowering of the American standard of living.

Never has the Democratic party been harder pressed for campaign material. It cannot maintain charges of government ex

doption of the following resolution:

Resolved, That a special committee composed of five Senators, three of whom shall be members of the majority and include one who is a Progressive Republican and two who shall be members of the minority, said committee to be appointed by the Vice-President, is hereby authorized to investigate the manner in which Section 315 (the flexible provision) of the Tariff Act of 1922 has been and is being administered.

Democrats and one "Progressive Republican" give a majority to the opposition. As far as the findings of the committee are concerned, the Tariff Commission is condemned in advance. There will be open season for the next three months for tariff commissioners; and the Senate committee. commissioners; and the Senate committee good, for upon the sites of the old struc-

cago to determine what degree of crime the majority favors.

Some of the birds that won't ap-pear in the spring are those that were eliminated in spring train-

Americans are hard to drive. There's too much talk about en-forcing the laws and not enough about obeying the laws.

TIA JUANA VS. AMEL

BY LEIGH H. IRVING Somebody should tell the truth about Tia 3 States, but nobody has told it, so I have conclud-the hope of calling attention to the scandal of a tenses and our multitudinous shortcon our own crimes and multiplying iniqu

Juana for more than thirty years. I know that it has been whispered that American men and wou

advent of the Volstead regime in America.

Let us for the moment forget the fatal blunders of the father of the Peteet girls and admit that his respectable daughters were outraged, as cannot be denied, also that the erring father slew his family when he realized that his last shameful debauch, during which he mistreated his children by taking them to the commonest saloons, had caused their ruin—and in extenuation of the conduct of the daughters, let it be remembered that they went with their father to try to induce him to give up his drunken orgies—and that not one word can be uttered against those pitiful victims of their father's drunkenness.

ANOTHER VIEW OF TIA JUANA

ANOTHER VIEW OF TIA JUANA
Hundreds of thousands of American men and women from all ranks and conditions of life have been visiting Tia Juana at the rate of more than 100,000 each month during the last five years. Old men and women with daughters and little children have thronged the open saloons to see the life there throbbing and beating. These visitors now live in all parts of the world. They will testify that the saloons along the main street were a surpise to them because the type of dranken and noisy reveiry familiar in American saloons until a few years ago was absent. Why? Because "house policemen" were there to maintain a semblance of order. A large percentage of the visitors are testotalers. ANOTHER VIEW OF TIA JUANA

tain a semblance of order. A large percentage of the visitors are test totalers.

Life and property are safer in Tia Juana today, and have been safer there for twenty years, than in such American cities as Chicago, New York, Cleveland and Los Angeles. The crime record of Tia Juana for the last five years has been infinitely cleaner than the average crime record of America, and punishment in Tia Juana has been swifter and more effective than in our medieval courts—although I am not presenting Mexico as the world's model in the administration of justice.

Let me cite the example of a real country, as regards the early the country as regards the early the percentage of the country as regards the sent the percentage of the country are real country.

administration of justice.

Let me cite the example of a real country, as regards the enforcement of the law against rape, robbery, murder and all crimes—I mean England, and I am an American. At no period in the life of civilized man have human beings been so immune from being murdered as in the United Kingdom of the year 1928. Under the British law murder is punished quickly, and by hanging only, whather the murderer be rich or poor, prince or peasant. My book proves that England is safer today than in the days of the Puritans.

England had fifty times more war than America, England has "modernism," automobiles, radios and the many distractions of civilizations, also the sitered social eustoms and the liquors that some persons maintain are responsible for modern crimes—but England has the best courts and the highest type of lawyers on this planet, as American judges and lawyers frankly admit.

A RECENT OUTRAGE

A RECENT OUTRAGE Only a few months ago two fiends who chance to be twin brothers were convicted (in Los and two finds and contraging a beautiful and highly respectable young woman. They were sent to a penitentiary, but a group of maudlin men and women of the sob-sister type protested against long sentences because of the tender years" of the defendants, who were then 24 years old. Under proper provocation a Darrow

der proper provocation a Darrow might have had them declared mentally irresponsible. In this connection what was the disgraceful result in the Loeb-Leopold acase? What are we Californians doing to make human life safe in California? The very newspapers that clamor against Tia Juana and "the time" emblason their pages with half-tones of half-nude divorcees and moving-picture actreases. The lem.

half-tomes of half-nude divorcess and moving-picture actresses. The pictures illuminate narratives that deal with social lapses, co-respondents and salacious incidents of unconventional life as it manifests itself all the way from Hollywood to Greenwich Village. It is these newspapers that refrain from publishing such facts as I have here submitted respecting life in Tia Juana.

The boas is the man who turns purple that way when he finds your feet on his deak.

The adjective in "crude oil" doesn't refer to the technique of its lobbyistc.

The world grows better. Modern kids aren't required to take anything to thin their blood in the spring.

When an American stages a come-back, that's a feat; with Briand it's just a habit.

Correct this sentence: "Yes, he's made a lot of money," said the man, "but he doesn't feel competent to advise people about everything."

The journeys undertaken by the presence of some men of the character that are been hurt even more than we Americans who pause in hor phosphorus, are pholosphorus, are provided the units of the character that all it all its just a habit.

Correct this sentence: "Yes, he's made a lot of money," said the man, "but he doesn't feel competent to advise people about every erything."

BIRDS GREAT TRAVELERS

PLAYDOM

BUGGY RIDE DAYS EAR-TEASING "EAST LYNNE" RETURNS TO SCREEN

By Edwin Schallert
Something should really be done
about it—the way the boys treated
the girls back in the sixties and
seventies. I take it, at least, that
that is about the period in which
good old "East Lynne" is laid, although I have really forgotten.
The acreen version of this opetime celebrated stage classic is
showing this week at the Criterion
Theater, and the only thing that is
hard to understand about the show
is why the villain isn't hissed, as
he rightly should be, when he takes
his linal fade-out.
"East Lynne"—drama of sentimental memory!
I am told that audiences have
cried over its new film representation. I hope they do, and I think
that they should, and if they don't
cry, they can laugh at least. Which,
either way, means entertainment.
Incidentally, "East Lynne" is
drawing an exceptional attendance,
the received being supplemented by

Incidentally, East appropriate in a second attendance, to presence being supplemented by short stage sketch written by a short stage sketch written by Robert Edeson, and featuring Lou Tellegen, and more or less ap-propriately designated as "Her Busband's Friend." Emmett Flynn sponsors the staging of this, he being also the director of the pie-ture.

it has been filmed with the same seriousness that caused playgors of another generation to weep generously especially over those closing scenes when poor outcast Lady Isabel returns to her children.

To say, that its plot is creaky is to put it mildly. It emanates from a time, of course, when a girl said to a man "thanks for the buggy ride" and really meant it. One wonders how Sir Francis Levinson would have managed his intrigue and strategies with feminine hearts today. Cartainly it was taxing for his ladies to keephim sufficiently supplied with apples. Lou Tellegen's fancy for pippins, both feminine and horticultural in the feature appears, if anything, enormous.

"East Lynne" did their work ver acceptably.

Much less effective was the sketch "Her Husband's Friend. It was played by Tellegen, William V. Mong, and Cecil Lynn, but because it starts without any sparkly or snap, it proves somewhat disappointing. The idea in ver filmsy and borders none to skillfully on the risque. second, "Let Us All Flee Love's Desire," contained some clever staccate singing.

In the Bach motet for five parts, the chorus did especially nice work with interweaving melody requiring super-breath-control.

Calmon Luboviski, violinist, made an excellent impression with his ethereal violin-tone and musicianly phrasing. His playing of Spanish dances by Sarasate and the Wienlawski "Souvenir" with encores, was in superlative good

Three Injured in Quarrel Arising From Boy Playing on Sidewalk Next Door

Three men were being held for investigation by police last night as the result of a stabbing affray in which each was wounded. They were Fred Cooper, 51 years of age, a watchman, of 124 West Ninety-fifth street, his son, John Cooper, 19, and Joe Messina 20, a barber, of 128 West Ninety-fifth street.

According to statements the police say they obtained, the fight started when John Cooper sidewalk to the use of the Cooper sidewalk by Frank Messina, 8, as a play ground. Various members of both families argued the matter until Messina and the younger Cooper began a fist fight. Messina defies he had a kinife and asserts each of the Coopers received two stab wounds in the side while the elder cooper was trying to stab him. Messina was wounded in the left forearm. None of the wonds in the side while the elder cooper was trying to stab him. Messina was wounded in the left forearm. None of the wonds is likely to prove serious. Detective the affair.

In the development of military availation in Los Angeles is expected to result from the officer of the cooper side and probable and the pr Three men were being held for
